

CALL FOR PAPERS

ICMF 2021
Feb 15-16, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMF 2021 : International Conference on Metacognition and Forgetting is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metacognition and Forgetting. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information, mind, and cognition
Semiotics and cognition
Language, communication, and cognition
Perception, action, and attention
Art, emotion, neuromodulation, and cognition
History of the concepts of cognition, mind, and brain
