

CALL FOR PAPERS

ICSSA 2021
Feb 15-16, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSA 2021 : International Conference on Stereoselective Synthesis and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Stereoselective Synthesis and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stereoselective Synthesis
Stereoselective Reactions of Carbon
Stereoselective Reactions of Carbonyl and Imino Groups
Stereoselective Pericyclic Reactions
Type 0 Reactions
Type I Reactions

Simple Chirality Transfer Reactions
Type II Reactions: Simple Diastereoselectivity
Type II Reactions: Occasional Diastereoselectivity
Type III Reactions: Those Involving Asymmetric Induction
Type III Reactions of Diastereotopic and Enantiotopic Atoms and Groups
