

# CALL FOR PAPERS

**ICAMA 2021**  
**Feb 18-19, 2021**  
**Jeddah, Saudi Arabia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMA 2021 : International Conference on Agroengineering and Mechanized Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agroengineering and Mechanized Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agroengineering	Food processing
Agricultural mechanization and automation	Food security and safety
Agriculture processing	Microfluidics for food, agriculture and biosystems
Animal and plant environment	Packaging engineering
Aquacultural engineering	Particle and powder technology
Bioinformation system	Postharvest engineering and technology
Bioprocess and environment	Precision farming and AgriGIS
Biosystems technology	Process control and integration
Biotechnology and bioengineering for agriculture and biosystems	Process modelling and simulation
Drying technology	Safety and health in agriculture
Farm structure	Soil and water engineering
Fermentation technology	Veterinary medicine
Food and agricultural waste management
