

CALL FOR PAPERS

ICCSPS 2021
Feb 18-19, 2021
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSPS 2021 : International Conference on Concentrated Solar Power Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concentrated Solar Power Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concentrated solar power systems
Concentrating solar power
technology
Performance of concentrated solar
power systems
Photovoltaic solar technologies
Concentrated photovoltaics
Mainstream technologies
Concentrated solar power systems
Concentrated solar power design
Concentrated solar power stations
Concentrated Solar power plants
Generating methods
Conversion systems

Modern technology
Concentrated solar power
Photovoltaic power stations
Concentrating solar power stations
Self-consumption
Energy pricing and incentives
Environmental impacts
Greenhouse gases
Energy payback
Emerging technologies
Concentrator photovoltaic
Floatovoltaics
