

CALL FOR PAPERS

ICEMT 2021
Feb 18-19, 2021
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMT 2021 : International Conference on Energy, Materials and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy, Materials and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy materials
Nonferrous metal material
Iron and steel
High strength alloys
Materials processing and handling
Composites
Micro/nano materials
Ceramic
Optical, electronic, magnetic materials
Carbon based materials
Metallurgical science
Metallurgical fundamentals and techniques
New functional materials

Building materials
New energy materials
Environmental friendly materials
Earthquake materials and design
Biomaterials
Smart and intelligent materials
Intelligent materials systems
Polymeric materials
Thin films
Mechanical behavior and fracture
Tool testing and evaluation of materials
Processing technology for functional materials
Function test and evaluation technology for material analysis
