

# CALL FOR PAPERS

**ICMACROMC 2021**  
**Feb 18-19, 2021**  
**Jeddah, Saudi Arabia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMACROMC 2021 : International Conference on Metal-Assisted Cycloaddition Reactions in Organotransition Metal Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Metal-Assisted Cycloaddition Reactions in Organotransition Metal Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organotransition metal chemistry  
Organotransition metal chemistry  
and catalysis  
Structure and bonding  
Dative ligands  
Covalent ligands bound  
Metal-carbon and metal-hydride  
bonds  
Metal-heteroatom bonds  
Ligand substitution reactions  
Metal-assisted cycloaddition  
reactions in organotransition metal  
chemistry  
Electron-transfer chain  
catalysis  
Organotransition metal chemistry  
applications  
Polymer synthesis and  
organotransition metal chemistry

Oxidative addition  
Reductive elimination  
Migratory insertion  
Elimination reactions  
Metal-ligand multiple bonds  
Homogenous hydrogenation  
Hydrofunctionalization and  
oxidative functionalization  
Catalytic carbonylation  
Cross coupling  
Allylic substitution  
Olefin polymerization
