

CALL FOR PAPERS

ICNTRTAM 2021
Feb 18-19, 2021
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTRTAM 2021 : International Conference on New Trends in Reflectarray and Transmitarray Antennas and Metasurfaces is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of New Trends in Reflectarray and Transmitarray Antennas and Metasurfaces. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Innovative
reflectarray/transmitarray cells
Quasi-periodic antennas for
disruptive applications
Reflectarray/transmitarray
optimization, analysis and
modelling of reflectarrays
Reflectarrays with advanced
performance
Reconfigurable
reflectarrays/transmitarrays

Reflectarrays in novel
configurations
Pattern synthesis techniques
High frequency reflectarrays
Conformal and non-planar
reflectarrays
Metasurfaces
