

CALL FOR PAPERS

ICPE 2021
Feb 18-19, 2021
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPE 2021 : International Conference on Polar Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polar Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polar engineering
Arctic science and technology
Arctic materials
Ice mechanics, modeling and forces
Ice-structure interactions and ice breaking
Ice conditions, forecasting and navigation
Atmospheric icing
Remote sensing and ice management
Polar construction/logistics/research
Arctic engineering
Offshore mechanics and dynamics
Cold regions engineering
Climate change and arctic engineering

Arctic geography, climate, and global warming
Arctic heat and mass transfer
Arctic hydrology and hydraulic engineering
Snow and ice engineering
Geotechnical fundamentals and frozen ground
Arctic buildings and building foundations
Arctic utilities and facilities
Arctic roads, road design and construction
Arctic construction and construction technologies
Exploration and project planning in arctic regions
Feasibility studies, design and permitting
Environmental monitoring and management in arctic regions
