

CALL FOR PAPERS

ICSIMIE 2021
Feb 18-19, 2021
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSIMIE 2021 : International Conference on System Information Models in Information Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of System Information Models in Information Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

System information models
Digital representations of
connected systems
Information modeling and relational
databases
Relational mapping
Modeling approaches in information
engineering
Information levels and frameworks
Conceptual modeling

Data modeling
Object reference and single-valued
attributes
Multi-valued attributes
Procurement and construction
Data warehousing
Electrical instrumentation and
control
Power and communication systems
