

CALL FOR PAPERS

ICBCB 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCB 2021 : International Conference on Biomass Conversion and Biopolymers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomass Conversion and Biopolymers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pretreatment/fractionation of lignocellulosic biomass
Catalytic/enzymatic/photochemical/electrochemical/biochemical/bioelectrochemical conversion of cellulose, hemicellulose, and lignin to biofuels, biochemicals, and biomaterials
Cultivation of algal biomass (marine/fresh water) and utilization of algal biomass for biofuels, biochemicals, and biomaterials

Transesterification of lipids to biodiesel
CO₂ capture and conversion of fuels and chemicals
Biomaterials from biomass for biomedical applications
