

CALL FOR PAPERS

ICBMCCE 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMCCE 2021 : International Conference on Building Materials, Chemistry and Civil Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Building Materials, Chemistry and Civil Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Material chemistry and building materials
Polymer materials and processing
Structural chemistry of materials
Green building materials and technologies
Advances in cement based materials
Sustainable resources and materials use

Material quality and control
Local and recycled materials
Smart and sustainable materials
Concrete technology
Geo-polymer composite materials
