

CALL FOR PAPERS

ICCDPS 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDPS 2021 : International Conference on Control and Dynamics of Process Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control and Dynamics of Process Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dynamics and Control of Process Systems
Dynamics and Control of Reacting Systems
Model Predictive Control and Process Monitoring
Complex Dynamics
Complex Separation Systems
Control of Nonlinear or Large Scale Processes
Optimization Methods
Dynamics and Control of Polymerization Methods
Parameter Estimation and Model Identification
Industrial Scale Problems and Solutions

Modelling and Simulation for Process Control
Model Based Control
Process Monitoring
Dynamics and Control of Separation Systems
Dynamics and Control of Industrial Systems
Monitoring and Control of Processes
Issues in Controller Design and Estimation
Dynamics and Control of Batch Systems
Testing and Verifying Control Strategies
Complex Reaction Systems. Design and Control
