

# CALL FOR PAPERS

**ICCIMA 2021**  
**Feb 11-12, 2021**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIMA 2021 : International Conference on Computer-Integrated Manufacturing and Automation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Integrated Manufacturing and Automation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-integrated manufacturing  
Robotics and robotic technology  
Human-robot collaborative  
manufacturing  
Flexible automation  
Industry 4.0  
Industrial internet  
Cloud-based manufacturing  
Product life cycle management  
Cyber-physical production systems  
Big data analytics in manufacturing  
mechatronics  
Machine learning  
Biotech manufacturing  
Additive manufacturing

Green manufacturing  
Sustainable manufacturing  
Innovative practices and  
sustainable performance in  
manufacturing  
Environmental management practices  
Reverse logistics and supply chain  
management in computer integrated  
manufacturing  
Sustainable manufacturing  
practices  
Eco innovation and sustainable  
competitiveness  
Remanufacturing strategies  
Organizational proactive management  
strategies  
Influence of technology on  
sustainable competitiveness  
Carbon efficient manufacturing and  
sustainable supply chains  
Techno-socio-eco efficient  
indicators
