

CALL FOR PAPERS

ICES 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICES 2021 : International Conference on Evolution of Sex is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolution of Sex. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolution of sexual reproduction
Sexual reproduction and the evolution of sex
Origin of sexual reproduction
Evolutionary theories on gender and sexual reproduction
Two-fold cost of sex
Sex decoupled from reproduction
Promotion of genetic variation
Advantages conferred by sex
Advantages due to genetic variation
Novel genotypes
Increased resistance to parasites

Deleterious mutation clearance
Evading harmful mutation build-up
Removal of deleterious genes
Geodakyan's evolutionary theory of sex
Speed of evolution
DNA repair and complementation
Libertine bubble theory
Mechanistic origin of sexual reproduction
Viral eukaryogenesis
Neomuran revolution
