

CALL FOR PAPERS

ICETTMCS 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETTMCS 2021 : International Conference on Environmental Toxicology of Trace Metals and Chemical Speciation is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Toxicology of Trace Metals and Chemical Speciation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical speciation and
bioavailability
Toxicokinetic and toxicodynamic
approaches
Modelling approaches
Environmental risk assessment

Adverse outcome pathways
Metal mixture effects
Metals and environmental stressors
effects
