

CALL FOR PAPERS

ICFSRTI 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSRTI 2021 : International Conference on Food Science Research, Technology and Innovation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Science Research, Technology and Innovation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in food packaging:
Ecoefficient, biodegradable,
edible, intelligent and active
packaging

Advances in food structure and
functionality: Research and
application from the nano to the
macro scale

Advances in research and
applications of nonthermal
technologies for food processing
and preservation

Energy, water and waste reduction
in the food chain from theory to
the consumer

Food chemistry and material science
for enhanced nutrition, health and
pleasure

Food microbiology: New research
areas and predictive/monitoring
tools for efficient and sustainable
risk and food safety assessment and
management

Food quality from the perspective
of science, the food industry and
society. Current and future
challenges

Food science and process
engineering research applications
contributing to food security and
water conservation

Food Science Research, Technology
and Innovation

From basic research in Food Science
and Engineering to sustainable

process and product development

Novel processes for optimized
conventional foods and optimization
of classic processes for new
products
