

# CALL FOR PAPERS

**ICGEST 2021**  
**Feb 11-12, 2021**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEST 2021 : International Conference on Green Energy Sciences and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Energy Sciences and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy, science and technology  
Environment and green technology  
Bio energy conversion technologies  
Bio fuels in transport  
Bio mass  
Biogas  
Biomass industries  
Climate change  
Emerging perspectives of renewable energy  
Energy saving in buildings  
Environment and green technology  
Gasification

Global warming  
Hydro power systems  
Low energy architecture  
Power-to-gas technologies  
Renewable energy economics  
Renewable energy gas technology  
Renewable energy resources and systems  
Renewable energy, energy efficiency and systems and grids  
Solar energy technologies  
Waste to energy  
Wind energy technologies
