

CALL FOR PAPERS

ICKIAF 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICKIAF 2021 : International Conference on Knowledge-Intensive Agriculture and Farming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Knowledge-Intensive Agriculture and Farming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Knowledge-intensive agriculture
Technology and transformation of agriculture
Emergence of knowledge intensive agriculture
Knowledge-based bioeconomy
Bioinformatics, genetic engineering and applications
Nanotechnology, agrichemicals and food processing
Knowledge intensive agriculture for sustainable development
Development of knowledge intensive product-service systems
Building knowledge systems in agriculture

Precision in farm operations
Smart greenhouses
IT in whole food value chain
Optimization of production intensities
Optimization of crop rotations
Optimization of farm management
Optimization of farm structure
Integrated rural development
Potentials and limitations of policy measures
