

CALL FOR PAPERS

ICMVA 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVA 2021 : International Conference on Models of Visual Attention is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Models of Visual Attention. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Visual attention
Visual attention and consciousness
Spatial and non-spatial aspects of visual attention
Feature-based attention
Spatial attention
Object-based attention
Cross-modal attention
Computational modelling of visual attention
Recurrent models of visual attention
Visual attention and eye movements

Overt and covert attention
Bottom-up and top-down attention
Saliency, attention and visual search
Neuronal mechanisms of visual attention
Visual attention and cortical circuits
Dynamics of attention-related modulations
Attention and stimulus tuning
Attention and sensory normalization
Neuronal origins of spatial attention
Attention to visual features and to other sensory modalities
