

# CALL FOR PAPERS

**ICMVM 2021**  
**Feb 11-12, 2021**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVM 2021 : International Conference on Machine Vision and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machine Vision and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deep learning  
Deep vision  
3D acquisition  
Embedded vision  
Pattern recognition  
Registration  
Computational photography  
Volume models and point clouds  
Natural user interface and gestures

Vision computation challenges  
Mobile vision applications  
Vision in autonomous systems  
Medical applications  
Classification solutions for vision  
Image formation, optics and sensors  
Machine learning  
Video search and retrieval
