

CALL FOR PAPERS

ICNSD 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNSD 2021 : International Conference on Nanomaterial Synthesis and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanomaterial Synthesis and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterial synthesis
Nanomaterial synthesis,
characterization, and application
Processing of nanomaterials
Gas condensation
Vacuum deposition and vaporization
Design of nanomaterial synthesis by
aerosol processes
Chemical vapor deposition and
chemical vapor condensation
Mechanical attrition
II-VI and III-V quantum dot
synthesis
Compositionally graded
nanostructures
Metal and metal-oxide complexes for
catalysis
Complex oxides and zeolites

High energy mills
Attrition ball mill
Planetary ball mill
Vibrating ball mill
Low energy tumbling mill
High energy ball mill
Sol-gel techniques
Hydrolysis
Condensation
Growth and agglomeration
Electrodeposition
