

CALL FOR PAPERS

ICSIFC 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSIFC 2021 : International Conference on Structure Instability and Failure in Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structure Instability and Failure in Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural failure of buildings
Failures in construction
Failure during construction
Failure due to failure of services
Failure due to improper
maintenance
Geotechnical failure

Structure instability
Foundation failure
Design problems and solutions
Engineering failure analysis
Failure mechanisms in building
construction
Collapse buildings
