

CALL FOR PAPERS

ICVGFRRHP 2021
Feb 11-12, 2021
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVGFRRHP 2021 : International Conference on Vent Geochemistry, Fluid-Rock Reaction and Hydrothermal Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vent Geochemistry, Fluid-Rock Reaction and Hydrothermal Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vent geochemistry
Hydrothermal vent processes
Vent fluid chemistry
Physical properties
Biological theories
The deep hot biosphere
Discovery and exploration

Processes controlling vent fluid
chemistry
Circulation zones
Fluid-rock reaction and
equilibrium
Phase separation
Temporal changes in vent fluid
chemistry
Hydrothermal vent geochemistry and
bacterial chemosynthesis
