

CALL FOR PAPERS

ICACECC 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACECC 2021 : International Conference on Advanced Chemical Engineering and Computational Chemistry is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Chemical Engineering and Computational Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry and chemical engineering fundamentals

Chemical reaction engineering

Chemical engineering equipment design and process design

Analytical chemistry

Physical, theoretical and computational chemistry

Chemical engineering educational challenges and development

Chemical reaction engineering

Chemical engineering equipment design and process design

Thermodynamics

Catalysis and reaction engineering

Particulate systems

Rheology

Multifase flows

Interfacial and colloidal phenomena

Transport phenomena in porous/granular media

Membranes and membrane science

Crystallization

Distillation, absorption and extraction

Ionic liquids/electrolyte solutions
