

CALL FOR PAPERS

ICACME 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACME 2021 : International Conference on Advanced Composites and Materials Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Composites and Materials Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Additive manufacturing	Infrastructure
Applications	Interfaces and interphases
Bio-based composites	Interlaminar reinforcements
Biomimetic composites	Joint and bearing behaviour
Ceramic matrix composites	Life cycle analysis and
Concrete and cementitious	sustainability
composites	Low cost technologies
Damage and fracture	Mechanical and physical properties
Durability and ageing	Metal matrix composites
Experimental techniques	Multifunctional composites
Fibers and matrices	Multiscale modelling
FRP reinforced concrete	Nanocomposites
Health monitoring	Nanotechnologies
Hybrid composites	NDE technologies
