

# CALL FOR PAPERS

**ICASDM 2021**  
**Feb 08-09, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASDM 2021 : International Conference on Aerospace Systems Design and Metamodeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Systems Design and Metamodeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace systems design  
Model-based aerospace systems design  
Aerospace systems design and simulation  
Aerospace systems design and optimization  
Data engineering in aerospace systems design  
Reusable software architectures for aerospace systems  
Multidisciplinary aerospace system design  
High-fidelity modeling  
Metamodeling for complex systems

Global aircraft design process  
Flexibility in system designs  
Fuel system  
Actuation  
Secondary power  
Landing gears  
Power plant  
Thermal management
