

CALL FOR PAPERS

ICCMCS 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMCS 2021 : International Conference on Cognitive Manufacturing and Connected Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Manufacturing and Connected Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive manufacturing
Artificial cognition in production systems
Industry 4.0 and connected manufacturing
Cognitive computing
Cross-industry examples

Cognitive systems in manufacturing
The cognitive era
Artificial intelligence
Cognitive computing in internet of things
