

CALL FOR PAPERS

ICEDMC 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEDMC 2021 : International Conference on Energy Demand Management and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Demand Management and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy demand management
Demand response and load management
Energy efficiency and demand side management
Data-driven demand management
Smart grid demand management
Distributed control for energy demand management

Optimization models and methods for demand-side management
Artificial intelligence technologies in energy demand management
Mathematical optimization techniques for demand management
Energy consumption management and recent technologies
Demand planning and energy economics
