

CALL FOR PAPERS

ICFMA 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMA 2021 : International Conference on Fluid Mechanics and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluid Mechanics and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fluid Mechanics and Applications
Issues and Perspectives in
Automotive Flows
Advances in Numerical Modeling for
Turbomachinery Flow Optimization
Industrial and Environmental
Applications of Fluid Mechanics
Fluid Machinery
Numerical Methods for Multiphase
Flow
Flow Measurement Uncertainty
Multiphase Flows
Cavitation and Multiphase Flow
Fluid-Particle Interactions in
Turbulence
Biological Flows
Advances in Fluids Engineering
Turbulent Flows: Issues and
Perspectives

Flow Applications in Aerospace
Fluid Power
Bio-Inspired Fluid Mechanics
Flow Manipulation and Active
Control
Transport Phenomena in Energy
Conversion from Clean and
Sustainable Resources
Transport Phenomena in Materials
Processing and Manufacturing
Processes
Transport Phenomena in Mixing
Noninvasive Measurements in Single
and Multiphase Flows
Fluid Measurements and
Instrumentation
Applications in CFD
Development and Applications of
Immersed Boundary Methods
Algorithm Development in CFD
Fluid-Structure Interaction and
Flow-Induced Noise in Industrial
Applications
