

# CALL FOR PAPERS

**ICIPM 2021**  
**Feb 08-09, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPM 2021 : International Conference on Industrial Pollution and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Pollution and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial pollution  
Toxic chemicals  
Causes of industrial pollution  
Sources and effects of industrial pollution  
Impacts of industrial pollution on humans and wildlife  
Control of industrial pollution  
Industrial contaminants and issues of emerging concern  
Environmental policy and education  
Industrial pollution monitoring and control technology  
Human and ecological risk assessment

Industrial water pollution  
Gaseous pollutants  
Coal-fired power plants  
Petro-chemical plants  
Nuclear waste  
Industrial solid and hazardous waste  
Particulate matter in gaseous emissions  
Pollution control through efficient combustion technology  
Pollution control in industrial processes  
Pollution control in transportation
