

CALL FOR PAPERS

ICMICC 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMICC 2021 : International Conference on Marine Invertebrates and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Invertebrates and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine invertebrates	
Marine ecosystems	
Human disturbances	
Coastal shoreline development	
Climate change	
Conservation planning	
Importance of marine invertebrates	
Feeding marine invertebrates	
Chemical ecology of benthic marine invertebrates	
Macro- invertebrates in marine soft sediments	
Reproduction and development of marine invertebrates	
Recruitment of marine invertebrates	
Evolution in marine invertebrates	
	Classification of marine invertebrates
	Global diversity of marine invertebrates
	Marine sponges
	Marine cnidarians
	Marine worms
	Anemones and corals
	Jellyfish
	Hydroids
	Barnacles
	Echinoderms
	Marine molluscs
	Marine arthropods
	Minerals from sea water
