

CALL FOR PAPERS

ICMQP 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMQP 2021 : International Conference on Macroscopic Quantum Phenomena is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Macroscopic Quantum Phenomena. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Macroscopic quantum phenomena
Macroscopic quantum mechanics
Consequences of the macroscopic occupation
Superfluidity and superconductivity
Macroscopic quantum model of superconductivity

Macroscopic quantum currents in superconductors
Fluxoid quantization
Thick ring
Interrupted ring, weak links
Dilute quantum gases
