

# CALL FOR PAPERS

**ICMSCASA 2021**  
**Feb 08-09, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSCASA 2021 : International Conference on Mechanical Systems and Computational Aspects of Structural Acoustics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Systems and Computational Aspects of Structural Acoustics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architectural Acoustics  
Air Distribution System Noise  
Airborne Sound Insulation  
Building Acoustics and Vibration  
Computational Aspects of Structural Acoustics and Vibration  
Condition Monitoring  
Dynamics of Civil Structures  
Engineering Acoustics  
Flanking Sound Transmission

Fundamental Building Acoustics  
Identification of Mechanical Systems  
Impact Sound Isolation and Insulation of Floors  
Outdoor Sound Propagation  
Room Acoustics  
Single Number Ratings and Test Methods  
Sound Insulation of Doors and Windows  
Structural Dynamics  
Vibrations in Buildings
