

CALL FOR PAPERS

ICNGGT 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNGGT 2021 : International Conference on New Genetic and Genomic Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of New Genetic and Genomic Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The importance of genetics and genomics to the health
Proteomics
Pharmacogenetics and pharmacogenomics
Personalized medicine
The use of pharmacogenomics information

Stem cell therapy
Cloning
Gene testing
Gene therapy
Genetic counseling
