

CALL FOR PAPERS

ICOWMRA 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOWMRA 2021 : International Conference on Organic Waste Management and Recycling in Agriculture is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Waste Management and Recycling in Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic waste recycling in agriculture
Organic wastes for sustainable soil health and crop growth
Organic waste management
Greenhouse gas emissions from soil
Biochar and compost as soil amendments
Carbon and nitrogen dynamics in soil
Soil organic matter transformation and stabilization
Solid waste reuse in agriculture

Waste water reuse in agriculture
Utilization of organic wastes:
composting
Ways to reduce, reuse and recycle organic waste
Social and economic impact of reduction, reuse and recycling of organic waste in agriculture
Methods to raise the public awareness of recycling and reuse of organic waste in agriculture
Organic waste utilization in animal and poultry nutrition
Urban food waste composting
