**Feb 08-09, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPAD 2021 : International Conference on Pharmacognosy and Adrenergic Drugs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pharmacognosy and Adrenergic Drugs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biopharmaceutics and pharmaceuticals  
Pharmacy practice  
Pharmaceutical chemistry  
Pharmacology  
Drug discovery and development  
Protein interactions as drug targets  
Adrenergic drugs  
Anesthesia pharmacology  
Antibiotics  
Application of membrane protein structure determination and its applications in drug design  
Chemotherapy and other antineoplastic drugs  
Cholinergic drugs  
Clinical pharmacology

Clinical pharmacy  
Design and optimization of dosage regimens  
Drug development  
Drug metabolism and interactions  
Narcotic  
Nursing pharmacology  
Personalized medicine  
Pharmaceutical crops  
Pharmaceuticals testing  
Pharmacokinetics and pharmacodynamics  
Serotonin pharmacology  
Characterization of drugs and biotherapeutics  
Applications of ADME in early drug discovery
