The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQDBL 2021 : International Conference on Quantum Dot Based Lasers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Dot Based Lasers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum dots
Semiconductor confined systems
Semiconductor lasers
Semiconductor materials

Mode locked lasers
Ultrafast devices
Optoelectronic devices
Photonic devices
