

# CALL FOR PAPERS

**ICRTPM 2021**  
**Feb 08-09, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTPM 2021 : International Conference on Recent Trends in Piezoelectric Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Trends in Piezoelectric Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Piezoelectric materials  
Piezoelectricity  
Piezoelectric sensors and actuators  
Application of piezoelectric materials  
Energy harvesting using piezoelectric materials  
Naturally occurring crystals  
Synthetic crystals  
Synthetic ceramics  
Lead-free piezoceramics  
Polymers  
Organic nanostructures

Application of piezoelectric materials  
High voltage and power sources  
Sensors  
Actuators  
Frequency standard  
Piezoelectric motors  
Reduction of vibrations and noise  
Infertility treatment  
Surgery  
Potential applications
