

CALL FOR PAPERS

ICSAET 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAET 2021 : International Conference on Software Architecture, Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Architecture, Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software engineering
Applications of software engineering
Advances in software engineering
Software process
Software engineering practice
Web engineering
Quality management
Managing software projects

Advanced topics in software engineering
Multimedia and visual software engineering
Software maintenance and testing
Languages and formal methods
Web-based education systems and learning applications
Software engineering decision making
Knowledge-based systems and formal methods
Search engines and information retrieval
