

CALL FOR PAPERS

ICSRIDM 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRIDM 2021 : International Conference on Seismic Resilient Infrastructures and Disaster Management is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Seismic Resilient Infrastructures and Disaster Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic resilient infrastructures
Disaster management
Soil dynamics and earthquake engineering
Risks and uncertainty
Infrastructure systems
Innovative resilient materials
Mechanistic and diagnostics approaches

Structural health monitoring
Seismic hazard analysis
Resilience and risk mitigation
Seismic retrofitting
Dynamic soil structure interaction
Sustainably-resilient structures
