

CALL FOR PAPERS

ICTFGDCEPP 2021
Feb 08-09, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTFGDCEPP 2021 : International Conference on The Formation of Genetic Diversification, its Contribution to the Evolution of Plants and Polyploidy is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of The Formation of Genetic Diversification, its Contribution to the Evolution of Plants and Polyploidy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Genomics
Epigenomics
Structural variation
Transposons
Copy number variation

Structural variation
Polyploidy
Meiotic and mitotic recombination
Deletion
Gene conversion
