

CALL FOR PAPERS

ICDARC 2021
Feb 15-16, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDARC 2021 : International Conference on Digital Architecture and Robotic Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Architecture and Robotic Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital architecture
Digital technologies in
architecture
Digital architectural design
Digital design and digital
fabrication
Computer modeling and programming
in digital architecture
Simulation and imaging in digital
architecture
Digital architecture and robotic
construction
Animate architectures

Metamorphic architectures
Parametric architectures
Evolutionary architectures
3-D tools in architecture
3-D editing
Parametric design and modeling
Computer-based form optimization,
evaluation and modification
