

# CALL FOR PAPERS

**ICGGF 2021**  
**Feb 15-16, 2021**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGF 2021 : International Conference on Glasses and Glass Fibers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Glasses and Glass Fibers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Glass fibers  
Commercial and experimental glass fibers  
General-purpose glass fibers  
High strength glass fibers  
Glass fiber chemical compositions  
Glass melting and fiber forming  
Glass fiber manufacturing and production  
Recycling and reuse of glass fibers  
Glass fiber reinforcement

Glass fibers for engineering applications  
Glass fiber properties  
Physical properties of glass fibers  
Chemical resistance of glass fibers  
Electrical properties of glass fibers  
Thermal properties of glass fibers  
Optical properties of glass fibers  
Radiation properties of glass fibers  
Mechanical properties of glass fibers
