

CALL FOR PAPERS

ICIMD 2021
Feb 01-02, 2021
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMD 2021 : International Conference on Implantable Medical Devices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Implantable Medical Devices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Implantable medical devices
Medical electronics
Micro-electro-mechanical systems
Biocompatible materials
Medical implant design
Power approaches for implantable medical devices

Cardiovascular implants and orthopaedic implants, other medical implants
Mechanical properties of implantable medical devices
Corrosion and biocompatibility
Sterilization of implantable medical devices
Applications of implantable medical devices
Security and privacy for implantable medical devices
