

CALL FOR PAPERS

ICLVIHD 2021
Feb 01-02, 2021
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLVIHD 2021 : International Conference on Low-Volume Irrigation and Hydraulic Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Low-Volume Irrigation and Hydraulic Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Low-volume irrigation
Low-volume irrigation systems
System components
Hydraulic design of low-volume irrigation systems
Low-volume irrigation technology
Fixed flow drip emitters

Adjustable drip emitters
Ecological restoration and phytoremediation projects
Water conservation and regulations
Monitoring soil water
Sustainable low-volume irrigation management
Drip irrigation for agriculture
