

# CALL FOR PAPERS

**ICAMCME 2021**  
**Feb 22-23, 2021**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMCME 2021 : International Conference on Advanced Motion Control and Mechanical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Motion Control and Mechanical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

|   |   |
|---|---|
| Actuators and Sensors in Motion System        | Concurrent Engineering                      |
| Advanced Dynamics and Motion Control          | Condition monitoring                        |
| Advanced Motion Control                       | CPG based Feedback Control,                 |
| Aerodynamics                                  | Morphological Control                       |
| Aerospace Systems and Technology              | Design and Manufacturing                    |
| Alternative energy                            | Energy and Thermofluids                     |
| Applied Mechanics and Design                  | Energy conversion system                    |
| Automation                                    | Energy Management                           |
| Automation Technologies in Primary Industries | Finite element analysis                     |
| Biomechanics                                  | Fluid Dynamics                              |
| Computational Fluid Dynamics                  | Fuels and Combustion                        |
| Computer aided engineering design             | Green Manufacturing                         |
| Computer Vision in Motion Control             | Haptics, Robotics and Human-Machine Systems |
|   | Heat and Mass Transfer                      |
