

# CALL FOR PAPERS

**ICANR 2021**  
**Feb 22-23, 2021**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANR 2021 : International Conference on Advances in Nuclear Reactors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Nuclear Reactors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced nuclear reactors  
Advanced nuclear reactor systems  
Advanced nuclear energy  
Assessment of advanced nuclear reactor technologies  
Large evolutionary light water reactors  
Mid-sized light water reactors with passive safety features  
High-temperature gas reactors

Liquid metal reactors  
Molten salt reactors  
Small modular reactors  
Techno-economic assessment of small modular reactors  
Advanced nuclear reactors and tritium impacts  
New insights on modeling news dissemination on nuclear issues
