

CALL FOR PAPERS

ICCITIP 2021
Feb 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCITIP 2021 : International Conference on Computational Intelligence Techniques for Image Processing is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Intelligence Techniques for Image Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational intelligence in image processing
Neural networks
Fuzzy logic
Rough sets
Metaheuristics
Expert systems
Coding and compression
Sampling and interpolation
Quantization and halftoning
Quality assessment
Filtering and enhancement

Morphology
Edge detection and segmentation
Feature extraction
Indexing and retrieval
Evolutionary algorithms
Simulated annealing
Tabu search
Ant colony optimization
Particle swarm optimization
Harmony search
Bee colony optimization
