

CALL FOR PAPERS

ICBTMA 2021
Feb 25-26, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBTMA 2021 : International Conference on Nuclear Technology and Medical Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear Technology and Medical Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear technology
Industry and research
Nuclear power
Medical applications
Industrial applications
Commercial applications
Food processing and agriculture
Production of radioisotopes
Industrial and research uses of radioisotopes and radiation
Tracer applications
Leak detection
Pipeline interfaces
Flow patterns

Flow rate measurements
Labeled reagents
Tracer dilution
Wear analyses
Mixing times
Residence times
Frequency response
Surface temperature measurements
Radiodating
Materials affect radiation
Radiography
Thickness gauging
Density gauges
