

CALL FOR PAPERS

ICRSSEDO 2021
Feb 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRSSEDO 2021 : International Conference on Railway and Subway Systems Engineering Design and Optimization is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Railway and Subway Systems Engineering Design and Optimization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Timetable planning
Computer techniques and
simulations
Actual train control
Operations quality
Risk management
Planning
Monitoring and maintenance

Energy supply and consumption
Communications and signaling
Rescheduling
Safety and security
Railway vehicle dynamics
Driverless and automatic train
operation
